AIR PURIFIER “OZ-AIR® PURE”

With the rise of air pollution, the necessity of clean breathing air can no longer be ignored. As per WHO air inside our homes can be 2-5 times more polluted than outdoor air. OZ-AIR® PURE Air purification system uses an advanced HEPA clean state of the art technology that provides a clean indoor environment by drastic reduction in Bacteria Contamination Smell & VOC's. The system provides combination of 3 filter 6 stage air purification system.

SPECIFICATIONS

- **Air Flow** : 650 m³/hr
- **Clean Air Delivery Rate** : 512 m³/hr
- **Applicable Area** : 55-70 m²
- **Negative Ion** : $\leq 10 \times 10^6$ /cc
- **Power** : 220-230 VAC / 50 ~60Hz / 1 \emptyset /55 W
- **Dimension** : 651 X 400 X 254 mm
- **Timer Function** : 1-2-4-8 Hr
- **Remote Control** : Yes
- **Controls** : Child Lock / Wi-fi (Optional)
- **Indicator** : Filter Replacement, Room Temp.
- **Sensor** : Smell / PM2.5
- **Filters** : Active Carbon Filter, True HEPA Filter, Washable Pre-filter
- **Enclosure** : ABS Plastic
- **Noise Level** : ≤ 70 dB
- **Purification Efficiency** : 99%

OZ-AIR® PURE, with TURE HEPA, Washable Pre Filter & ACF technology, automatically purifies and Senses your indoor air quality via GSS Sensor Particulate Display (PM 2.5) & Smell Sensors as four Band Status Bar Display. It Removes 99.97% of particles that pass through the 6 Stages of filters, effectively reducing allergens, gases and odors. Its Fast Air flow Technology makes it practically most efficient & ideal Air Purifier for a room with an applicable room size up to 55-70 m².

FEATURES

- Motor : Brushless DC Motor with Very Less Sound & Better Efficiency
- PM 2.5 Digital Display : Shows PM2.5 Concentration of Indoor Air
- Smell Sensor : Senses Air pollutants Displays the Status by colours display
- Air Quality Indicator : 4 Level Intelligent AQMS Monitoring (Excellent, Good, Moderate & Poor)
- Machine Control System : Remote Control, Touch or WIFI Optional
- AUTO Functions : Automatic working according to air quality status
- Sleep Patterns : Working in lowest speed level when user in sleeping
- Air Speed Level : Four level Air speed (Silence, Medium, High & Turbo)
- Timing Model : 1, 2, 4 & 8 Hr
- Anion : Start when machine start
- Filter changing indicator : Change used filter in time, avoid air pollution
- Child Lock : Avoid the trouble of mis-operation

OZ-AIR® PURE IS EFFECTIVE AGAINST

APPLICATIONS

- Bedroom / Living Room
- Hotels/ Office Rooms
- Waiting Rooms
- Dining Halls / Banquets
- Hospitals / OPD / Nursing Homes
- Restaurants
