

A solution for VOC and Smell Reduction at CAR

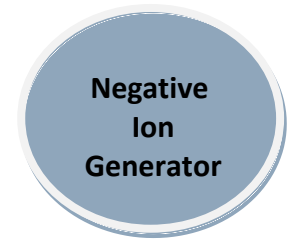

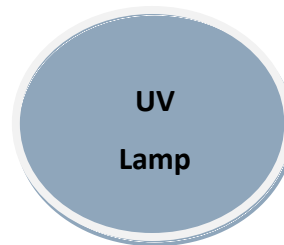

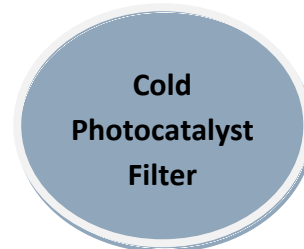

AIR PURIFIER “OZ-AIR® TREND”

OZ-AIR® TREND Air purification system uses Polyurethane & Sponge carbon filter that provides a clean environment by drastic reduction in Bacteria Contamination Smell & VOC's in Car.

SPECIFICATION

- **Applicable Area** : 5 m²
- **Clean Air Delivery Rate** : 12 m³/hr
- **Negative Ion** : >1,000,000/cc
- **Power** : DC 12 V / 2.5 W
- **Dimension** : 115*150*33 mm
- **Indicator** : LED Indicator
- **Filters** : Spong Carbon Filter, Negative Ion Generator, UV Lamp, Cold Photocatalyst Filter
- **Sensor** : Touch sense switch
- **Chargers** : Car Charger & USB Chargers
- **Noise Level** : ≤35 dB
- **Purification Efficiency** : 97%
